Stanislaus County Health Services Agency/Public Health Division is recruiting for:

California Children's Services
Medical Therapy Program
Certified Occupational Therapy Assistant

Some of the benefits of working for a dynamic and progressive Therapy Program —
- Close relationship with medical and rehabilitation professionals and school staff
- Working with therapists dedicated to excellence through practice and ongoing learning through conferences and in-services
- Working with pediatric clients in a fun-filled and playful setting
- Computer workstations with online documentation and evaluation software
- Comprehensive benefit programs including medical, dental and vision plans, retirement programs, vacation and sick leave and paid holidays.

The CCS Medical Therapy Program is a state-mandated program that offers physical and occupational therapy services for children between the ages of 0-21 with a qualified orthopedic and/or neurological diagnosis. Occupational and physical therapists in the program provide comprehensive rehabilitation services including evaluation and treatment of pediatric clients, assessing for durable medical equipment and orthotics, participation in Medical Therapy Clinics, as well as consultation with other rehabilitation professionals and educational staff.

Deadline to Apply: Open until filled
- Full Time Benefited Position
- $3,229.20-$3,924.27 monthly
- For additional info, please call 209-558-8121

Our well-equipped therapy units are located in the heart of California's Central Valley. Modesto is the largest city in the County, and lies 2 hours from San Francisco and Monterey to the East and Yosemite National Park and The Sierras to the West. Both Modesto and Stanislaus County are known for their very reasonable cost of living.

All applicants must possess current licensure as a C.O.T.A. by the State of California, or be eligible for such licensure. For full job descriptions, benefits, & application for these positions, visit us online at:
