Assignment Overview

This reflective activity is designed to help you process your learning and identify areas for further exploration. Your responses will guide me in providing support and additional resources as needed.

Outcomes and Objectives

Instructions

Respond briefly to the following reflection prompts:

- 3 things you learned from this module
- 2 questions you still have
- 1 concept or idea that stood out to you the most

Guidelines

You may submit your response as a short text entry, audio recording, or video message (about 1 minute or less). Choose the format you're most comfortable with.

Grading & Feedback

You will receive feedback within 3 days. Common themes and questions will be addressed through a class message, announcement, or brief video response. Individual responses may also receive targeted feedback. This is scored as complete/incomplete.

Canvas Guides

Here are some Canvas guides you can use to help you submit your assignment:

- [How to submit a text box entry](#)
- [How to upload a file for submission](#)
- [How to record media](#)
- [How to submit other online assignments](#)

3-2-1 Reflection

Assignment Overview

This reflective activity is designed to help you process your learning and identify areas for exploration. Your responses will guide me in providing support and additional resources as needed.

Outcomes and Objectives

Student Learning Outcomes

- Reflect on and articulate key learning points from course material.

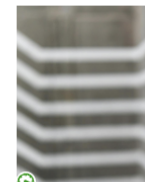

Objectives

- Encourage metacognition and support instructor-student interaction.

Instructions

Respond briefly to the following reflection prompts:

- 3 things you learned from this module
- 2 questions you still have
- 1 concept or idea that stood out to you the most

Guidelines

You may submit your response as a short text entry, audio recording, or video message (about 1 minute or less). Choose the format you're most comfortable with.

Grading & Feedback

You will receive feedback within 3 days. Common themes and questions will be addressed through a class message, announcement, or brief video response. Individual responses may also receive targeted feedback. This is scored as complete/incomplete.

As 'Bot' Students Continue to Flood In, Community Colleges Struggle to Respond

Community colleges have been dealing with an unprecedented phenomenon: fake students bent on stealing financial aid funds. While it has caused chaos at many colleges, some Southwestern faculty feel their leaders haven't done enough to curb the crisis.

In Battle Against AI-Powered Fraudsters, Colleges Turn to New Weapon – AI

To combat a growing wave of AI-powered fraudsters, community colleges are increasingly turning to fraud detection platforms using the same technology.
