1. Call to Order

A. Meeting commenced at 2:06 PM

B. Absent: Albarran

2. Math Department

A. Course Addition Proposals

- i. Innovative path to Calculus (Math 171) leads students into Math 180 + 080. It does not clear them into 180 without the 080 co-requisite. The department chair can clear students into 180 without the 080 on an individual case-by-case basis.
- ii. Any student can opt to go straight into Math 180 + 080. A question was raised as to why a student would then choose to take Math 171 instead of jumping straight into Math 180 + 080 and whether the department can consider making the 080 be optional, instead of required, for those who pass Math 171.
- iii. There is uncertainty about whether Math 171 would be payable by financial aid. The committee will discuss with the financial aid team.
- iv. Math 099NC instructional support lab. Can this be an open-access Canvas container instead of a course?
 - The Math department already has and Algebra Re-Charge Canvas container, but engagement is low. Math 099NC will be more targeted, with an instructor delivering instruction and exit skills requirements.
- v. What is the commitment requirement for Math 099NC (CISL Lab)?
 - Minimum 10 hours per term, but students can attend more. The course is open entry/open exit
- vi. Math 082 is optional support, anyone can take it, it is not linked to Math 280.
